

WARRANTY CARD

Dear Customer,

Our products are subject to strict quality controls. However, if this device shouldn't function perfectly, please contact the customer services address printed on the back. This is the only way for you to be able to return your device or use our pick up service offer for free. The warranty period is 24 months and starts with the date of the purchase. Please keep the receipt as a proof of your purchase. The warranty only covers defects caused by material and production flaws. During the warranty period, defective devices can be sent to the service address for free (please mind the local regulations for dangerous goods). As an alternative you can request a free return shipment at our service address. You will then receive a new or repaired device for free. In case of misuse or improper treatment, use of force or other interventions, the warranty is no longer valid. This warranty does not restrict your legal rights.

Note: In case of a warranty claim, please return the receipt and the filled out warranty card with a description of the fault.
